VAC MASTER 1020H COMMERCIAL VACUUM SYSTEM

Portable high efficient vacuum cleaning machine with a 90-litre waste container. Add the ACS carbon fiber high reach vacuum poles to allow dust vacuuming of up to 15 metres high.

Equipped with Ametek vacuum motors and HEPA filter with jet pulse cleaning action.

The Vac Master 1020H can be powered via a 240 volt 10 amp power supply wall socket. The design allows the system to be pulled apart into three pieces for ease of transport and even be carried in the rear of a small station wagon. This unit is also
