

Insulation Master® 9000

AUSTRALIAN MADE

INDUSTRIAL GRADE PERFORMANCE

3 YEARS WARRANTY ON ENGINE*

This is the fastest way to remove old cellulose insulation fibres from ceiling spaces. Using a large diameter 5 inch duct hose Insulation Master® will rapidly and profitably remove shredded cellulose insulation in a fraction of the time compared with regular vacuum cleaning.

An Australian developed, cellulose and rockwool fibre insulation removal vacuum that solves the design limitations associated with through the impeller style insulation removal machines. Insulation Master® is unique in its class.

Featuring straight-through suction Insulation Master does not pass any of the vacuumed cellulose insulation through its impeller fan scroll housing. This major operational improvement completely eliminates the rapid fan wear and engine drive shaft wear.

As a rapid recovery machine it is perfect for fast and profitable ceiling insulation removal with the benefit of having a significantly longer working lifespan with minimal ongoing maintenance costs. Insulation Master® comes complete including 30 metres of anti-static polyurethane vacuum duct hose. Available as either a skid mount or integrated into a custom road registrable trailer.

VANGUARD V TWIN 23HP ENGINE

FORKLIFTING POCKETS

STAINLESS STEEL CONSTRUCTION

400 LITRE CAPACITY WITH BIODEGRADABLE BAGS

NO MAINTENANCE FAN

10MTS VACUUM HOSE

DIMENSIONS (Skid Only)

Length - 1930mm Width - 700mm Height - 900mm
Weight - 270kg

* Refer to detailed warranty & conditions

Insulation Collection made *easy*

STANDARD & OPTIONAL FEATURES

- Extremely high airflow
- Simple to use OH&S safe design
- Unique, high static pressure, 12 blade turbo impeller fan Fully supported
- Electric start Unleaded engine
- 36 Month engine warranty
- Straight through suction means no impeller to snag
- Robust stainless steel construction
- Zero abrasion fan wear unlike typical leaf/litter vacuums
- Integrated forklift skid platform
- Low cost, quick change, 400L capacity collection bags
- Australian Made
- Ergonomic & light weight vacuum wand
- Bags feature inbuilt drawstring closure
- Intrinsically safe, fully enclosed rotating impeller fan

TYPICAL APPLICATIONS

Cellulose and rock wool fiber based insulation vacuuming

PLEASE NOTE:

This model is not rated to vacuum any type of contaminated, dangerous, asbestos dust. Vacuuming large quantities of any type of dust is not recommended.
