

# INSULATION MASTER® 9000

## Compare Our Standard Class Leading System Features & Company Experience

Insulation Master's® horizontal layout allows it to use low cost disposable 400 litre capacity, biodegradable, dust filtration vacuum bags..

12 Blade turbine impeller fan, which will rarely need maintenance as it is a clean fan system. Featuring straight-through suction Insulation Master™ does not pass any of the vacuumed Cellulose insulation through its impeller fan scroll housing. This major operational improvement completely eliminates the rapid fan wear & engine drive shaft wear

High volume airflow required for quick removal

Simple to use and is an Australian developed, Cellulose and Rockwool fibre insulation removal vacuum.

Insulation Master® can be mounted on a standard utility tray back, on a standard 8ft x 5ft trailer or a custom made trailer with a hose storage section.

Insulation Master® Body Material: Stainless Steel

You will achieve substantially greater productivity with very high airflow working via the 5 inch flexible

Fork Lift pockets integrated on Ute tray version.

VTWIN Vanguard 23HP Electric Start Petrol Engine (latest generation electronic engine control).

**INDUSTRIAL VACUUM PERFORMANCE, PORTABLE, LIGHTWEIGHT SYSTEM. AUSTRALIAN MANUFACTURED**
